### He Will Attend.

Washington, Nov. 13.—President Wilson has virtually decided to attend the Army-Navy football game at New York Nov. 27. He attended the game two years ago, but was unable to be present last year because of Mrs. Wilson's death.

### A Conscientious Hostess.

Ermyntude—I'm terribly worried. Dear Harold is coming home on leave and he tells me he's captured seven Germans. Now I really haven't the faintest idea what to do with them.—Weekly Telegraph.

## Tired, Nervous Women Need the Help of

Tired, nervous women need the help of a natural tonic which will build up bodily strength, help the nerves, increase the appetite and improve the digestion. When women find themselves in a tired, nervous condition, or suffer from sick headache, biliousness, and loss of appetite, it shows that the system is run-down and unable to respond to the demands which Nature imposes on it. Every woman should know what these conditions mean, and that the way to find quick and sure relief, is to take

# BEECHAM'S PILLS

at the first warning which tells that anything is wrong, for these pills quickly make everything right. They are a remarkable combination of remedial herbs, which act favorably on the organs, and are so mild that they cause no discomfort or disagreeable after effects. They remove impurities from the blood, stimulate the liver, regulate the bile, and have a gentle and thorough laxative effect which removes constipation.

Beecham's Pills are a great boon to women whenever they feel tired, nervous and depleted, for they carry strength and life to body, blood and nerves.

Directions of special value to women with every box.

## REPORT GOES TO THE GOVERNOR

Ownership in Power Company Is Chief Reason  
—Won't Resign

New York, Nov. 13.—State Senator Thomson, chairman of the legislative committee investigating the public service commission, announced yesterday that the committee would recommend to Governor Whitman the summary dismissal of Edward E. McCall, chairman of the public service commission in this district.

Formerly a justice of the supreme court of the state of New York, Mr. McCall was appointed by Governor Sulzer early in 1913 as chairman of the public service commission of this district. He resigned from the bench to accept the position.

Shortly afterward, when Governor Whitman assumed office, Mr. McCall and his associates were made the subject of a legislative investigation.

### REVISE RESERVE REGIONS.

Geographical Limits Are Not Quite Satisfactory.

Washington, Nov. 13.—The federal reserve board expects to take up next week the appeals which have been pending for many months for changes in the geographical limits of the 12 federal reserve banks. Before any of the cases is decided upon its merits, the board will undertake to determine the principle which shall govern in all. Involved in this is the question of whether the number of reserve banks should be reduced. No vote of the board has been taken on this matter but it is known some members feel that 12 banks are not needed. Attention has been drawn particularly to the fact that four of the 12 lost money during the quarter which ended Sept. 30. Members of the board realize, however, that any proposal to reduce the number of banks or change locations would meet with vigorous opposition from members of Congress and others interested. They recall the intense interest shown in the selection of the 12 cities which have now reserve banks.

### PROVED HIS INNOCENCE.

By Putting Together Skeleton of Hedgehog—Was Charged with Deer Slaying.

Rutland, Nov. 13.—The case against Kit Carson Potter of Shrewsbury, charged with killing a deer out of season, was yesterday nolle prossed in city court by State's Attorney C. V. Poulin. The respondent proved to Judge F. G. Swinnerton that meat which County Game Warden F. W. Hayward and Deputy Sheriff A. A. Leonard seized at his house Wednesday came from a hedgehog and was not venison.

When the officers visited the Potter house as result of a complaint, they found some cooked meat and some that was raw. They brought the latter to Rutland and this was exhibited in court when the trial was begun Thursday. Carson claimed at once that he had killed nothing except a hedgehog and men familiar with animals, who were called in as witnesses, could not swear that the meat in evidence was venison for the bones of the thigh joint were only four inches long, which would be too short for even the smallest fawn and the meat was tough, showing that it did not come from a young animal.

The "ball" of the ball and socket joint was attached to the meat and Potter informed the court that he could produce the part of the animal containing the socket into which the spherical piece of bone fitted. The case was continued to enable him to do so.

Yesterday he appeared in court carrying the pelvic bones of a hedgehog. The fit was perfect and he was released.

### Pittsburg Strikes.

Pittsburg, Pa., Nov. 13.—Two hundred striking tailors who Thursday demanded shorter hours and increased wages, returned to work yesterday, having won their principal contention, but enough other shops were called out by strike leaders to maintain the number of strikers at approximately 500.

### Fish Prices High.

Boston, Nov. 13.—Prices quoted yesterday for fresh fish were said to be the highest for years. Cod and haddock, usually so plentiful that they sold for less than eight cents a pound, were selling at retail yesterday at 15 cents and were comparatively scarce at that. The prices of other fish were also advanced.

### Hatches Chickens From Eggs That Were Never Laid.

"Three chickens, hatched from eggs that were never laid, composed the interesting part of a window display of poultry remedies in my drug store recently," writes a contributor in the current issue of Farm and Fireside, the national farm paper published at Springfield, O. "The idea came to me several months ago when I was planning my future window displays."

"Three laying hens, a White Orpington, a Rhode Island Red and a Black Minorca, were killed. I obtained an egg from every hen. The shell of the White Orpington egg was not fully developed, so I used gum arabic and adhesive plaster to finish the shell."

"The three eggs were placed in an incubator, and hatched out three chicks, a white one, a black one, and a red one. The chicks are healthy and are now large enough to crow."

### Bit of Sentiment.

"Why all these trucks as you pass that village?" inquired the woman. "That is my wife's pet name," explained the neighbor, Kansas City Journal.

## ITCHING ECZEMA COVERED ENTIRE BODY, RESINOL CURED

Could Not Sleep, 8 Remedies Had Failed.  
Resinol Stopped Itching Immediately.

Boston, Mass., Aug. 11, 1914.—"My entire body, even my eyelids, was completely covered with blisters as large as a pea. When one would burst water would come from it, and then it would turn into a very painful sore. The burning and itching were something terrible, and I COULD NOT SLEEP nor rest. I think I had one of the worst cases of eczema a human being ever had. "I used eight different kinds of remedies without success. I then tried Resinol Ointment and Resinol Soap and it stopped the itching IMMEDIATELY. I gradually noticed a change for the better. Now I am entirely cured, and am without a pimple or blemish on any part of my body." (Signed) Edward F. McCullough, 249 River St., Mattapan, Resinol Ointment and Resinol Soap heal skin eruptions, clear away pimples, and form a most valuable household treatment for sores, burns, etc. Sold by all druggists.

## ITALIANS WIN TRENCHES; HARD FIGHTS IN STORMS

They Capture Men and Positions in the Isonzo Front.

Rome, Nov. 13.—Important trenches in the sector of San Martino have been captured from the Austrians by the Italians, it was officially announced yesterday by the Italian war office, which says:

"On the Isonzo river front, in the sector of Plava, the Italians have advanced to the town of Gargara, where they captured 263 Austrians, three of them officers."

"Hard fighting is in progress over the greater part of the Austro-Italian front, despite severe storms and foggy weather."

### SCHMIDT DEFENSE WINS POINT.

Opening Statement of Special Prosecution Cut Short at Los Angeles.

Los Angeles, Cal., Nov. 13.—Taking of testimony was begun Thursday after the defense had scored a legal point by cutting short the opening statement of James W. Noel, special prosecutor, at the trial of Matthew A. Schmidt, charged with the murder of Charles Hagerty in connection with the dynamiting of the Los Angeles Times building five years ago. Judge Frank R. Willis ruled that Attorney Noel could not continue the recital of events which took place after The Times was blown up.

As an indication of what he intended to state, Mr. Noel told the court, in the absence of the jury, that the prosecution proposes to prove that after The Times explosion J. B. McNamara, who is serving a life term in San Quentin prison after pleading guilty of dynamiting The Times building, and Orrie E. McManis, who turned state's evidence, and who will be a witness in the present case, plotted to destroy virtually the entire city of Los Angeles.

### Villa and His Army.

Douglas, Ariz., Nov. 13.—General Villa's main army was yesterday several miles south of Naco, having occupied that position, it is said, for strategic reasons. It is claimed by I. G. Lelievre, Mexican consul at Naco, that Gen. Juan Medina, with 1,000 men, is awaiting an opportunity to join Gen. Peñas Calles, Carranza commander at Agua Prieta. Medina is said to have formally renounced Villa three days ago.

## The Greatest Medical Authorities in the World have made public statements in which they endorse the value of such ingredients as are contained in Father John's Medicine.

These great physicians say in substance, that these ingredients "are beneficial notably in wasting diseases and those maladies which are connected with or have their origin in colds and in debilitating and wasting diseases."

To detail here the statements of these various authorities would require too much space, but if you desire to see these statements in more complete form, write to Father John's Medicine, Lowell, Mass., and we will be glad to give the names of the authorities quoted, with brief excerpts from their public statements.

Father John's Medicine is a pure and wholesome body builder, contains no alcohol or dangerous drugs. Best for throat and lungs.

## ASKS WILSON TO JOIN MOVE

Dr. Jordan Says Peace Overtures Are Soon to Be Made

## MEETING SET FOR DECEMBER 14

Suspect Doctor May Be the Indirect Envoy of Nations at War

Washington, Nov. 13.—Will this government unite, if called upon, with other neutral countries in the establishment of a peace commission to bring about the end of the big European conflict on a basis of "international justice"? This question was laid before President Wilson yesterday by David Starr Jordan, president of Leland Stanford university and head of the International Peace congress.

The advances of Dr. Jordan were interpreted as being definite overtures toward peace by many of the neutral countries of the world, which in turn may have been inspired by the countries at war. Wilson's reply to Dr. Jordan was not learned.

Dr. Jordan admitted informal approval of the commission idea advanced by the peace congress in recent session in San Francisco had been received from Switzerland, Holland, Sweden, Denmark, Norway and Spain.

If such a commission as he suggests were formed, he would have it meet at The Hague, Copenhagen or Bern at Christmas time.

"That would be both a fitting and effective time for such a convocation," he said. Dr. Jordan added that if the commission were successful in bringing about its activities for peace, it should be maintained to work in the future in maintaining everlasting peace. If it were unsuccessful, at the present time, as he believed it possibly, and even probably, would be, he said it should be continued to work steadily until the desired and inevitable end was reached.

On Dec. 14, Dr. Jordan said, there will be an informal meeting of peace advocates from neutral countries at Bern, Switzerland, at which time preliminary work toward accomplishing the end desired by the International Peace congress will be started.

## WILSON DEFENDS PLAN LAID BEFORE CABINET

The President Is Said to Have the Backing of the Entire Body in National Defense Programme.

Washington, Nov. 13.—President Wilson is understood to have laid the new programme for national defense for the first time before the cabinet yesterday. It is said that the president's associates stand as a unit behind the administration's plan. The president gave a brief outline of what he proposes to concentrate his forces upon in the coming Congress.

It is believed that the president's first message to Congress will deal almost entirely with proposed increases in the army and navy. How revenue is to be raised to meet these increases was discussed yesterday.

There was a stir when Commerce Secretary Redfield failed to appear for the conference yesterday. Reported differences between the president and Redfield on questions of proposed trade legislation gave some color to Redfield's absence, but it was announced that he was on a trip to Georgia.

### To Continue Honor Scholarships.

At a meeting of the executive committee of the board of trustees of the University of Vermont, held Wednesday afternoon, it was voted to continue the honor scholarships instituted last year. These scholarships are provided by the university entirely from its own funds, and are given to the boy and the girl in every high school and academy in the state, preparing students for college, who attain the highest rank in scholarship. This year 42 students holding such scholarships have entered the university, and they have formed an organization designed to promote a high standard of scholarship, and have secured a charter from the secretary of state. In order to remain a member, the student must have a rank of A or B in at least half of his studies and must not fall below C in any study.

The New York Alumni association is supporting a student in the university, paying for this purpose, \$400 a year throughout the four years' course.

### Oh! Look Here.

The manager of the Barre opera house will give an entire box for the performance of "East Lynne" to the young lady or gentleman who will write and mail to

him before 12 o'clock noon on Nov. 18, the best essay on "East Lynne." This great play is so well known that every wife, mother and daughter knows the story. The winner's name will be announced later in the papers, and the winner can hold a box party on the night of the performance.—adv.

## Had Throat Trouble Doctors said health gone. Four bottles Peruna cured Me

Mr. B. W. D. Barnes, ex-sheriff of Warren county, Tennessee, in a letter from R. R. 2, box 10, McMinnville, Tenn., writes: "I had throat trouble and had three doctors treating me. All failed to do me any good, and pronounced my health gone. I concluded to try Peruna, and after using four bottles can say I was entirely cured. That was three years ago. I am now well and able to ride all the time, thanks to you, gentlemen."

Those who object to liquid medicines can now procure Peruna Tablets.

I Am  
Now  
Well  
And  
Able to  
Ride  
All  
The  
Time

## Topics of the Home and Household.

Be sure all canned fruits and jellies are kept in a cool, dark place.

Apples quartered and cored make a more delicious pie than when sliced.

Tansy is a sure preventive of moths. If the leaves are sprinkled freely about woollens and furs they will never be moth-eaten.

When you have a couple of hours' ironing to do, or if you have meat or vegetables to cook which require two or more hours' time, put a teakettle full of water on the fire, and when it boils, have in readiness a quarter of a junket tablet, crushed and dissolved in a tablespoonful of lukewarm water, and stir into the cocon mixture. Mix well and turn into two glass sherbet cups. Allow it to stand until set and then without jarring place on the ice to chill.

An old-fashioned silver castor, the kind with a high stem, five bottles and a tall handle, may be transformed into a handsome fern dish. Remove the handle and discard it. Take off the plate part that contains the holes, turn it upside down and screw it into place, remove the metal braces, fit a shallow tin pan inside and you have a charming fern holder.

White oilcloth on the kitchen table may be made to last longer if it is occasionally given a coat of white enamel paint. Be sure that the surface is perfectly clean and dry before applying the paint. Try enameling the inside of your cupboards also; they will be easier to keep clean, and the paint will close up cracks, so that there will be little chance for insects to gain access.

Snap fasteners may be used on curtains that are to hang from a shelf. Get the large-size fasteners and nail the ball, or under part of the fastener, to the edge of the shelf at regular intervals, using small wire nails and hammering them in tight enough to prevent any interference with the snapping on of the socket. Sew the sockets, or upper parts, to the curtain material at the same distances apart as the balls on the edge of the shelf. If it is desirable to have some fullness in the curtain lay a plait at each socket. A curtain arranged in this way will set more closely and bet more dust-proof than one hanging from a rod. It also has the additional advantage of being removed from the fasteners.

To cleanse sponges, wash first in a solution made by adding a teaspoonful of ammonia to two quarts of water and afterward in a solution of one part of muriatic acid to 25 parts of water. Sponges should be thoroughly rinsed, aired and dried after each using. Unless they are kept scrupulously clean, it is not well to use them at all. A piece of rough towel or table cloth hemmed at the edges is much better. Another way to clean sponges is to steep them in buttermilk for some hours, then squeeze out and wash in cold water. Lemon juice is also good.

### Desserts That Are Unusual.

Orange Bread Pudding—Soak a half a

cupful of stale bread in a quarter of a cupful of sweet milk, and when it is quite soft beat lightly with a fork. Flavor with the grated rind (yellow only) of half an orange and the juice of one whole one; add sugar to taste and the yolk of one egg. Beat again and fold in the white of the egg that has been whipped to a stiff froth. Turn into two individual buttered custard cups and cook like baked custard.

Cocoa Junket—Mix together a scant tablespoonful of powdered cocoa, two tablespoonfuls of boiling water and two teaspoonfuls of sugar. Cook these over a moderate heat and rub to a paste. Add gradually a large cupful of tepid milk and four drops of vanilla extract. Have in readiness a quarter of a junket tablet, crushed and dissolved in a tablespoonful of lukewarm water, and stir into the cocon mixture. Mix well and turn into two glass sherbet cups. Allow it to stand until set and then without jarring place on the ice to chill.

Date Tapioca—Mix together one and a half tablespoonfuls of granulated tapioca, two teaspoonfuls of sugar and a saltspoonful of salt. Then add one cupful of milk and cook in the upper part of the double boiler for 20 minutes. Have in readiness a quarter of a cupful of finely chopped and pitted dates and stir these into the tapioca with the yolk of one well-beaten egg. Cook only for a couple of minutes after the egg is added, and turn into two brown-glazed baking dishes. Make a meringue from the stiffly whipped egg white and one teaspoonful of granulated sugar; leap this over the top and place in a moderate oven until delicately browned.

Apple Gelatine—Apple gelatine is a delicious concoction that is seldom tried, although its cheapness and the simple preparation entitle it to a place on the weekly menu. Stew apples until tender enough to be pierced with a straw. Sweeten and flavor with lemon, nutmeg, vanilla or cinnamon. While they still retain their shape place them in a mould. Add enough water to make a pint, add to the syrup half an envelope of granulated gelatine which has been previously dissolved in cold water, and pour over the apples. When hardened, serve with custard or vanilla sauce or whipped cream.

Banana Delight—Beat the whites of three eggs until very stiff and quite dry, add half a cup of granulated sugar and the pulp of two large or three small bananas. To have this pulp right the bananas must be quite ripe and mashed fine. Pour the mixture into a baking dish of fire-proof china or porcelain and bake in a quick oven. Serve with plain or whipped cream. Dorothy Dexter.
